## OUTCOME UNCERTAIN

**Banking Committee Members Differ on Currency Revision.**

## SENATE CONFIRMS MR. M'KENNA

**Cabinet Officers In Favor of the Bureau of American Republics—Proceedings of the Senate and House of Representatives—Postmasters Confirmed—Treasury Statement.**

WASHINGTON, Jan. 22.—The committee on banking and currency, having concluded its hearings, extending over many days, on the question of revising the currency, will begin next Wednesday to consider the question of a report on some of the numerous propositions submitted. The members of the committee differ widely as to the outlook for affirmative action, some of them in leading positions declaring that the hearings have demonstrated that it will be impossible to secure a majority for any one proposition. Others are more hopeful and say that a composite measure, embodying the essential features of the Gage bill and monetary commission bill, is likely to command sufficient votes to be reported. There is a general agreement that none of the bills before the committee will be reported in their present form.

There are 17 members of the committee, five of them Democrats. Members favorable to the monetary commission bill say they hope to get seven votes at the outset, and later to secure the additional votes necessary. Some of the members counted in this seven say, however, that they will not vote for the bill. The situation within the committee is conceded to be very complicated. In view of this condition a number of members hope to have the general question put aside for the present and a bill restricted to the three recommendations of the president reported. This also arouses counter objections, so that there is little on which to base predictions of the outcome.

## M'KENNA CONFIRMED.

**Senator Allen Occupied Some Time in a Speech Against the Confirmation.**

WASHINGTON, Jan. 22.—The senate yesterday confirmed the nomination of Joseph McKenna of California to be associate justice of the supreme court of the United States.

Senator Allen occupied almost the entire executive session with his speech in opposition to confirmation, though there were brief remarks by Senators Turner and Wilson of Washington and others favorable to Mr. McKenna. There was no division on the vote.

Senator Allen had before him the charges filed with the committee on judiciary, which he read at length. This comprised a large number of letters, some resolutions and the protest of lawyers and judges on the Pacific coast charging that McKenna is unfitted for the high office of supreme court justice on the ground of a want of legal attainments. He commented at length upon this latter document and was interrupted by Senator Perkins of California, who read a published defense of Judge McKenna, giving statistics to show that he had not, as judge of the California federal court, been more frequently reversed by superior tribunals than had other judges of the same rank. There were also other interruptions during the day, but the proceedings were devoid of general interest.

Mr. Allen spoke for about three hours. He said he was convinced of Mr. McKenna's unfitness for the office. He did not insist upon a political when the vote was taken and the vote was overwhelmingly favorable to confirmation.

**BUREAU OF AMERICAN REPUBLICS.**  
**Cabinet Officers Think the Bureau Deserving of Earnest Support.**

WASHINGTON, Jan. 22.—The cabinet yesterday gave some time to a discussion of the conduct of the bureau of American republics, during which it passed in review congressional criticisms that have been lodged against the institution. Secretary Bliss testified as a business man to the great value of the publications of the bureau, particularly since it has come under the administration of the present director, Joseph Smith. It was the general opinion of the cabinet that the bureau was deserving of the earnest support of the administration.

**Senate and House.**

WASHINGTON, Jan. 22.—An agreement was reached yesterday that a final vote on the Teller resolution, providing that United States bonds may be paid in silver standard dollars, should be taken next Thursday. During the greater part of the afternoon the senate was in executive session. In the house there was a parliamentary struggle over the bill for the relief of the book publishing company of the M. E. church, South. Its opponents succeeded in preventing action. A bill was passed to extend the public land laws of the United States to Alaska and to grand a general railroad right-of-way through the territory. The urgent deficiency bill was sent to conference after striking from the bill the provision requiring the depositors of bullion at government assay offices to pay the cost of transportation to the mints.

**Indiana Postmasters.**  
WASHINGTON, Jan. 22.—The senate yesterday confirmed the appointment of the following Indiana postmasters: J. F. Caskey at Greensburg, J. W. Hess at Indianapolis, T. E. Newton at Shelbyville, G. F. Brown at Nappanee, W. E. Ward at Ellettsville.

**Treasury Statement.**  
WASHINGTON, Jan. 22.—The statement of the condition of the treasury shows: Available cash balance, \$339,569,158; gold reserve, \$163,392,998.

## NO DISCOURTESY SHOWN.

**Ambassador White Denies the Published Reports Emphatically.**

WASHINGTON, Jan. 22.—Ambassador White cabled the following to the secretary of state yesterday: "Statement in morning papers that Mrs. White and myself have been treated discourteously is absolutely and entirely without foundation. Emperor and all others have been most kind to us. I have never needed to call the attention of any person to any slight whatever. The notice regarding my reception was identical with that always issued after the presentation of an ambassador from any great power to the emperor."

The cablegram has reference to published reports that Ambassador and Mrs. White had been ignored and not given the courtesy and attention due his rank by high officials of the German court, and that it had been necessary to admonish the offending officials by a notice in the court circular of Germany. It appears from the cablegram that the court circular's notice, which gave rise to the published report, is simply a belated notice such as is always issued after presentation of an ambassador to the emperor.

## IN NEED OF AID.

**One-Third of the People of a Cuban District Are Suffering.**

NEW YORK, Jan. 22.—The central Cuban relief committee, appointed by President McKinley, has received a letter from William R. Day, assistant secretary of state, and a cablegram from General Lee. Mr. Day's contained an inclosure from Consul Hyatt at Santiago de Cuba to the effect that one-third of the people in that district are sick and in need of quinine and other medicines. Lined goods, too, are wanted, and as for food, rice, beans, cornmeal, codfish, dried beef and other articles which will keep well in a warm climate, would be welcome. Consul General Lee sent word that all previous shipments had arrived safely.

**Investigating Committee Visits Cincinnati to Gather Evidence.**

All members of the committee are present together with quite a delegation from Columbus and others from different parts of the state. The committee came from Columbus to the home of Representative Otis in order to examine witnesses residing in this city. The examination was held in the assembly room of the Gibson House in the presence of quite a large crowd.

## MILEAGE LAW TEST.

**Suit Being Prepared at Paducah Against Governor Bradley.**

PADUCAH, Ky., Jan. 22.—The city marshal of Paducah is preparing a suit against the governor to test the law relative to mileage allowed for return of culprits to the state. The marshal lately sent to Ohio for a forger and the governor only allowed 3 cents mileage, when the law says 6 cents. The marshal lost by the trip, and hence the proposed suit. The marshal says he has a murderer located, but under the governor's award, cannot afford to send for the man.

## REFORM IN PRIMARIES

**Session of the National Conference in New York.**

## MAYOR OF BOSTON PRESIDED.

**Ex-Minister to Turkey Strauss Spoke Briefly—Letters From Secretary Gage, Governor Tanner, John F. Altgeld and Others Read at the Conference—Election of Officers.**

NEW YORK, Jan. 22.—At yesterday's session of the national conference on the reform of primary elections, Josiah Quincy, mayor of Boston, occupied the chair. Oscar Strauss, ex-minister to the United States to Turkey, spoke briefly. A letter was read from Secretary of the Treasury Gage, in part as follows:

"Any barriers that hinder the freest expression of the intelligence and conscience of the nation at the primary must be removed if this is to remain a republican form of government. The party that will refuse to throw the proper restraint around a primary deserves to be repudiated."

Other letters were read from Governor Tanner of Illinois, Dr. Albert Shaw, John P. Altgeld, ex-governor of Illinois, and M. M. Garland, president of the Amalgamated Iron Workers' association.

The constitution as reported by the committee on permanent organization was unanimously adopted.

George F. Rush of Chicago, the framer of the primary election law now pending in the legislature of that state, addressed the conference at length in reply to the chair.

E. J. McDermott of Louisville read a paper by Thomas L. Johnson on "The Crawford County Plan."

The following were unanimously elected officers of the newly formed league for the coming year: President, Hon. Oscar S. Strauss, New York; first vice-president, Josiah Quincy, Boston; second vice-president, Charles Emory Smith, Philadelphia; third vice-president, Walter C. Flower, mayor of New Orleans; secretary, Ralph M. Easley, Chicago; treasurer, Darwin R. James, president of New York board of trade and transportation. These officers at their discretion will appoint an executive committee of 15.

## BRADSTREET'S REVIEW.

**Activity in Business and Industrial Lines the Notable Feature.**

NEW YORK, Jan. 22.—Bradstreet's today says: A large measure of activity in business and industrial lines is perhaps the most notable feature of the trade situation this week. Quotations of cereals show the most aggressive strength, while those of some makes of pigiron betray rather more decided weakness than they did a week ago. Mild weather is frequently mentioned as an influence tending to check retail distribution of seasonable goods, chiefly because of the effect on country roads.

At the west distributive trade is slowly improving, while at the south a fair January trade is reported, particularly in the Mississippi valley. Good returns from last year's Louisiana sugar crop find expression in higher prices for sugar lands. Mild weather in the northwest affects trades to some extent. A point of interest, however, is the report that fur goods manufacturers, usually shut down at this season, are running full time on Alaskan orders. Business is active on the Pacific coast. California crop prospects have been improved by the recent rains, and ship and boat building are very active along Puget sound and at Portland.

A further falling off in the number of business failures is reported in the United States this week, the total being only 309 against 323 last week, 429 in this week a year ago. Failures in the Dominion of Canada show a further falling off, amounting this week to only 46 against 58 last week, and 57 in 1897.

## SOLD HIS DAUGHTERS.

**Two Girls Given In Marriage For a Debt of One Hundred Dollars.**

KELLEY'S ISLAND, O., Jan. 22.—A year ago Joseph Folk came here from Poland and soon found work. He had been here but a short time when he received news from the old country of his wife's death, and later the information reached him that his two daughters were in want. Not having money enough to send for his children, he borrowed \$50 each from Peter Mille and Joseph Hidock, fellow workmen, to pay their passage to this country.

A couple of weeks ago the girls arrived and were warmly received. But the money loaned by Mille and Hidock was due and Folk could not pay it. They pressed him and finally the old man said he was afraid he could never pay it, but to satisfy the debt he would give one of his daughters to each as a wife, and this proposition was accepted. Mary Folk, age 16, was chosen by Hidock, and the younger one by Mille. Licenses were taken out and the two girls are now the wives of their father's debtors.

## WILL COMPLY WITH LAWS.

**Wabash Cars to Be Equipped With Devices Required by Federal Statutes.**

ST. LOUIS, Jan. 22.—In pursuance to the federal law regarding the couplings of railroad cars after Feb. 1, the Wabash will not accept any car to be hauled in passenger trains unless it is equipped with vertical plane couplers. Westinghouse quickacting automatic airbrakes and Westinghouse air train signals. Eastern roads have complied with the new statute and the new vertical coupler is now almost universally used. West of the Mississippi the improvement has not been so rapid, and many lines are still using the old style Miller hooks. The Wabash order further specifies that all cars handled in passenger trains between Chicago and Buffalo must be equipped with steam heating apparatus. The change is made necessary by a state law in force in New York prohibiting fires in the stoves of passenger coaches. The Burlington system has given similar orders.

## IN OLD MADRID.

**Feeling That the United States Has No Motive for Interference.**

MADRID, Jan. 22.—The feeling in official circles, after the dispatches received by Senator Sagasta from Cuba, is that the United States no longer has a motive for direct or indirect interference in Cuba.

The government considers that persistence in the jingo attitude by the American congress would be contrary to the dictates of reason and justice; and should the Washington government, in deference to the jingo tendency, commit unjustifiable acts, Spain would regard them as a veritable provocation, which she would reply to with the energy befitting the country's honor.

It is announced that the foreign minister Senor Gullon, has received Washington dispatches which provoked a long cabinet discussion.

## SCHOOLTEACHER ASSAULTED.

**Two Boys, Whom He Had Whipped, Waylay and Beat Him Severely.**

ANNA, Ills., Jan. 22.—John McGowan, a young teacher from Williamson county, who has been teaching a school in the northern portion of Alexander county, received serious injuries by two pupils, Henry and Scott Jordan, 19 and 20 years old, respectively. Mr. McGowan made a rule for all pupils to greet each other upon entering the schoolroom each morning and to show some respect for one another. The Jordan boys did not like the rule and disobeyed it. This resulted in a whipping being given them by the teacher.

The boys later waylaid McGowan and gave him a severe beating. They were arrested and are held at Jonesborough pending the action of the grand jury. For a time there was much feeling against the boys, who have confessed.

Thousands of men in every walk of life all over the world are playing a desperate game with Death for an opponent. They are playing with an opponent who has every advantage, and the outcome of the game is as certain as Death. The man in any walk of life, who is too hard-worked, too busy, to take care of his health has only himself to blame when the final break-down comes. It is easy to keep healthy while one has it, but uphill work to win it back when it is lost. A man neglects a slight indigestion. Then his appetite gets poor. That's a trifle and he pays no attention to it. Then he complains of headaches and it is hard to work or think. His sleep becomes restless and he only gets troubled spells of it. He gets nervous and irritable. Everything goes wrong both at home and at business. He persists in paying no attention to his health. Then some day he breaks down. The doctor says nervous prostration or consumption as the case may be. He has been playing a game with death and has been checkmated at the weakest point.

Dr. Pierce's Golden Medical Discovery is an unfailing cure for all disorders of the digestion, and the deadly maladies that follow in their train. It is the great blood-maker, flesh-builder, and nerve tonic. It cures 98 per cent. of all cases of consumption. It is an unfailing remedy for nervous prostration and exhaustion. Thousands of men have testified to their recovery under its use. It over all other remedies had failed. All druggists sell it. Do not deal with a druggist who offers you a substitute for he is not only dishonest but willing to sacrifice your health and possibly your life for a few added pennies of profit.

A clear complexion. Any one can have it who keeps the blood pure. Dr. Pierce's Pleasant Pellets cure constipation. One is a gentle laxative, and two a mild cathartic. Druggists sell them.

Royal Baking Powder assures the food against alum; gives the greatest value for its cost, and there is no other baking powder or leavening preparation that will give such satisfaction, or make such pure, wholesome and delicious food, or which in practical use will be found so economical.

## RECEIVING THE VERDICT.

Appearance of Coryell in Court to Hear the Jury's Verdict.

The Columbus Herald has the following to the verdict rendered by the jury in the case of Frank Coryell:

"The defendant, Frank Coryell, was brought to the court room from the jail and his face was deathly pale while he sat there waiting the announcement of the result of the jury's action, occasionally raising his colored goggles to wipe his eyes. The jury collectively viewed the prisoner, but the audience could not read the minds of the body and determine the verdict.

"The verdict of the jury was then called for and read. 'We, the jury, find the defendant guilty of murder in the second degree and assess his punishment at imprisonment at the Indiana state prison during life.'

"At these words, Coryell dropped his head and grew nervous. The judge then called for a poll of the jury and asked them individually if the verdict read was their verdict and they answered that it was.

"When asked to arise to be taken back to jail the prisoner straightened as if to walk but his nerves failed him and he started to sink but by the assistance of the officers he was held up. CORTELL HAS NOTHING TO SAY.

The Herald reporter called at the jail this afternoon and talked with the prisoner. He seemed to be in a rather easy mood. He talked courteously and would answer outside questions promptly and cheerfully, but when asked to express himself on the verdict he only replied: 'I have nothing further to say than what I said on the witness stand. Jail is a gloomy, unpleasant place but I must abide by the decision.'

A motion for a new trial will be argued before Judge Hord next Wednesday.

### Sudden Death.

The people of Cortland were surprised last night on learning of the death of Mrs. William Brocker who died suddenly at 8:30 o'clock Friday night January 21, 1898, with heart trouble. She had retired only a short time before. She was heard to utter a peculiar noise when her husband hurried to her bedside. A physician was called who did all in his power but to no purpose and she quietly passed away. Her age was about thirty-five years. She was an ardent member of the M. E. church and was highly respected by all. She was also a member of the Cortland Grange by which order her funeral will take place at Cortland at 11 o'clock tomorrow forenoon. A husband and eight children survive who have the sincere sympathy of their many friends.

### May Partially Agree.

The state board of education held a meeting yesterday to discuss the proposition of the nonstate college men looking to reorganization of the board. Nothing was given out for publication regarding the deliberations, and the board adjourned until 8 o'clock today to take up the matter again. Something is expected to develop today, and the indications point to a partial agreement at least between the clashing educational interests. The presidents of the various nonstate colleges are now in Indianapolis awaiting the final action of the state board.

### Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Hall's Family Pills are the best.

If you eat what you like, and digest it, you will surely be strong and healthy. But if you don't digest it, you might almost as well not eat, for what good can your food do you if it doesn't nourish you?

If you find that you can't digest it, there is a simple help for your stomach. It is Shaker Digestive Cordial, made by the Shakers of Mount Lebanon. It has never failed to cure the worst case of indigestion.

Strength and health come from the food you eat, after it has been digested and has gone into the blood.

The best tonic is digested food. The best aid to digestion, Shaker Digestive Cordial. When you have acid eruptions, nausea, headache, wind, dizziness, offensive breath, or any other symptoms of dyspepsia, Shaker Digestive Cordial will cure you.

## HOME DRESSMAKING.

HOW THE WHOLE FAMILY CAN DRESS WELL AT SMALL COST.

No Need of Looking Shabby Even Though Times are Hard—Easy to Make Old Gowns and Suits Look Like New when One Knows How.

It is astonishing how much can be made from seemingly useless garments by the woman who knows how. The old faded gown that is out of style can be readily dyed with Diamond Dyes to a fashionable color and then made over so that it will look almost like new. Suits for the boys can be made from old ones discarded by the father, and a bath in Diamond Dyes will make them look like new. Dresses and cloaks for the little girls can be made with but little trouble and scarcely any expense, from a tattered garment of the older folks and when the color is changed with Diamond Dyes, the made over will look as though they were fresh from the dressmaker.

Diamond Dyes are made especially for home use, and the plain directions on each package make it impossible for even the most inexperienced to have poor luck with these dyes. They color anything from ribbons, feathers, and scarfs to heavy coats and gowns, and make perfectly non-fading colors, even handsomer than those made by the professional dyer.

## THE USEFUL GIRAFFE.

Employed to Get Down Bulls That Had Lodged in the Roof Gutter.

"Good natured?" said the old circus man. "Why, the best in the world. When the old man's boy used to get a baseball lodged in a gutter at the eaves of the house—this was when we were off the road in winter quarters—he never used to get out at the scuttle and climb down the roof and take the risk of falling off and breaking his neck to get it. He used to go to the barn and get out the giraffe. The old 18 footer would trot along after the boy—he knew what was wanted—till they came to the house and then walk along the side looking down into the gutter as he went along until he came to the ball, and then he would pick it up and bend his head down and give it to the boy.

"One day when the youngster had thrown a ball up on the roof and had seen it roll down into the gutter he went as usual after the giraffe. When the giraffe looked along the gutter that day, there was no ball there. He took his nose out of the gutter and looked down at the boy in the yard with a large interrogation mark in each eye as much as to say:

"Sure it didn't roll off somewhere?"

"And the boy said 'Sure,' and then the giraffe looked again, but it wasn't there, and the giraffe so reported, with a solemn shake of the head, and was driven back to the barn.

"They wondered about this, for it was the first time the giraffe had ever failed to get the ball, and they knew it must be there, but it was soon explained. A day or two later there came a big rainstorm. Instead of running a big noisy stream as usual the tin water pipe from the roof ran just a little bit of a stream, and the water that should have run off in that way overflowed the gutters and dripped in a thin sheet against the side of the house. Then they knew why the giraffe couldn't find the ball. It had rolled down the water pipe."—New York Sun.

## SHOES 'CAME BACK.

HOW MR. AND MRS. ALGERNON SMITH DISPOSED OF A NUISANCE.

They Couldn't Sell the Things, Couldn't Give Them Away and Were Not Permitted to Lose Them—Finally Smith Thought of the Furnace, and All Is Well.

A rag peddler was slowly passing Mrs. Algermon Smith's house when that good woman hailed him.

"How much for old shoes?"

"Helluv a cent a pound for wool an cotton. I can't pry ole shoes."

"Any iron or pottles you want to sell, lady? You want to sell dose t'ings vat you haf on? Helluv a cent a pound. I can no more gif. I want no dose shoes, not for nothings. Nothings else?"

Mrs. Smith indignantly closed the window. When her husband came home at night, she said:

"Algermon, I want you to take a lot of old shoes I've done up in a package and throw them away."

"Why don't you give them to the washerwoman?" asked Mr. Smith.

"She won't have them—says they're not her kind of shoes," was the answer. "They are all either too large or too small, the heels are too high, and they are the wrong number. I offered them to a tramp, and he said when he went into the shoe business he would let me know—he wasn't buying misfits yet."

"I like his impudence. Where are they? I'll make short work of them," said Mr. Smith, and he took the big bundle his wife gave him and went out. In 15 minutes he was back.

"So you got rid of them," said his wife joyfully. "I think there was an accumulation of six years in that lot. Some of them I had given to people who were begging at the door, but I always found them again next day in the lot. Old shoes are like cats, if you send them away they always come back."

"The cat won't come back this time," said her husband. "I dumped them in a vacant lot and ran. After this when you buy a pair of new shoes leave your old ones at the store."

Next morning as Mrs. Smith was doing her housework the door bell rang.

"I guess maybe you've had a burglary," said the cheery voice of a man who stood on the steps and seemed in a hurry. "I found this bundle, with your name and address on it, when I was looking over my lot today."

Mrs. Smith took the bundle and feebly thanked him. When Algermon came home, she told him. He said there were more ways of killing a cat than of choking her with butter, and after supper he took up the bundle and went out.

He knew of a nice dark place down near a church where he could slide in and drop that load of shoes without being seen. He had taken the precaution to tear off the address and had changed the shape of the bundle. As he deposited it in the arched way of this dark corner a heavy hand was laid on his shoulder.

"No, you don't. No abandonment of the little innocent when you get tired of your own flesh and blood. Pick up the poor thing now or I'll club ye."

It was the new policeman on that beat, and he didn't know Mr. Smith. He listened to his explanation with a most aggressive and unbelieving air.

"Lemme see the kid," he demanded, and when the "kid" proved to be kid shoes he grew still angrier.

"I've a mind to run ye in for disturbing the peace and resisting an officer," he said, but finally permitted Smith to take his bundle and go home.

The next night a snudge came out of the Smiths' chimney, and the neighbors held their noses. About midnight a loud rapping was heard at the front door, and a light in the basement was hastily extinguished. Mr. Smith answered the summons, while Mrs. Smith hid in the coal cellar. A patrol wagon full of policemen was at the door. One of them was on the steps.

"Are you running a glue factory here without a license?" he demanded of Smith.

"Then what is that infernal odor?" Your neighbors have telephoned that you were making yourself a nuisance and want you abated."

Smith took the crowd in and told his story—how they had put those shoes in the garbage box and had them turned out again and how they had tried to sell them or give them away and finally to lose them. Then he showed the police to the basement and opened the door of the furnace, where the shoes were being cremated. Then he produced some bottles with long necks that were sent for his birthday, and for half an hour he was busy pulling corks. After some time he released Mrs. Smith from the coal cellar.

"Are they gone?" she gasped.

"The police?"

"No, no; the shoes."

"Every scrap reduced to ashes."

They embraced, and happiness reigned in the Smith household. — Chicago Times-Herald.

# A Soldier's Escape.

From the Democrat-Messenger, Mt. Sterling, Ill.

When Richmond had fallen and the great commanders had bent the historic apple tree at Appomattox, the 83d Pennsylvania Volunteers, prematurely aged, clad in tatters and rags, broken in body but of dauntless spirit, swung into line for the last "grand review" and then quietly marched away to begin life's fray anew. Rebel shot and shell, the dread miasma of the southern swamp, sleepless nights and wearisome days had depleted their ranks until only a handful remained. Among the number Asa Robinson came back to the old home in Mt. Sterling, Ill.; that he had left at the call to arms four years previous. He went away in the first flush of vigorous manhood; he came back a ghost of the self that answered to President Lincoln's call for "300,000 more."

With his return to the old homestead there came to him the knowledge that war with him was only begun; that he must fight the battle with disease to the end of his days, that the glare of a southern sun and the galling fire of a southern soldiery were as nothing compared to the onslaught of an enemy that fought under cover and disregarded all the rules of civilized warfare. Scatle rheumatism fastened its fangs upon him, incapacitating him for manual labor and rendering him, much of the time, physically as helpless as an infant. The years passed by, but his sufferings, with increasing age, were increased rather than diminished. He spent a small fortune for doctor's medicine, praying for even temporary relief, but it did not come.

Today he is an alert, active man of fifty-five years. His rheumatic pains have departed, and while there are traces of his years of suffering in his face he walks with the solidly bearing and springy step of a healthy young man.

To the Democrat-Messenger reporter he talked freely about his case. Mr. Robinson is a man of much more than average education and intelligence. Where he is known in Brown County his word is as acceptable as the word of the average man, and there is no question but that in his case an almost miraculous cure

was wrought by Dr. Williams' Pink Pills for Pale People.

"I was a great sufferer from sciatic rheumatism almost from the time of my discharge from the army. At times I was bent almost double, and got around with only the greatest difficulty. Nothing seemed to give me permanent relief until three years ago, when my attention was called to some of the wonderful cures effected by Dr. Williams' Pink Pills for Pale People, and I made up my mind to try them. I had not taken more than a half a box when I noticed an improvement in my condition. I took three boxes of the pills, and at the end of that time was in better condition than at any time since the close of my army service. Since then I have never been bothered with rheumatism. Dr. Williams' Pink Pills for Pale People is the only remedy that ever did me any good, and to them I owe my restoration to health."

**OUTCOME UNCERTAIN**  
**Banking Committee Members Differ**  
**on Currency Revision.**

**SENATE CONFIRMS MR. McKENNA**  
Cabinet Officers in Favor of the Bureau of American Republics—Proceedings of the Senate and House of Representatives—Postmasters Confirmed—Treasury Statement.

WASHINGTON, Jan. 22.—The committee on banking and currency, having concluded its hearings, extending over many days, on the question of revising the currency, will begin next Wednesday to consider the question of a report on some of the numerous propositions submitted. The members of the committee differ widely as to the outlook for affirmative action, some of those in leading positions declaring that the hearings have demonstrated that it will be impossible to secure a majority for any one proposition. Others are more hopeful and say that a composite measure, embodying the essential features of the Gage bill and monetary commission bill, is likely to command sufficient votes to be reported. There is a general agreement that none of the bills before the committee will be reported in their present form. There are 17 members of the committee, five of them Democrats. Members favorable to the monetary commission bill say they hope to get seven votes at the outset, and later to secure the additional votes necessary. Some of the members counted in this seven say, however, that they will not vote for the bill. The situation within the committee is conceded to be very complicated. In view of this condition a number of members hope to have the general question put aside for the present and a bill restricted to the three recommendations of the president reported. This also arouses counter objections, so that there is little on which to base predictions of the outcome.

**McKENNA CONFIRMED.**  
Senator Allen Occupied Some Time in a Speech Against the Confirmation.  
WASHINGTON, Jan. 22.—The senate yesterday confirmed the nomination of Joseph McKenna of California to be associate justice of the supreme court of the United States. Senator Allen occupied almost the entire executive session with his speech in opposition to confirmation, though there were brief remarks by Senators Turner and Wilson of Washington and others favorable to Mr. McKenna. There was no division on the vote.

Senator Allen had before him the charges filed with the committee on judiciary, which he read at length. This comprised a large number of letters, some resolutions and the protest of lawyers and judges on the Pacific coast charging that McKenna is unfitted for the high office of supreme court justice on the ground of a want of legal attainments. He commented at length upon this latter document and was interrupted by Senator Perkins of California, who read a published defense of Judge McKenna, giving statistics to show that he had not, as judge of the California federal court, been more frequently reversed by superior tribunals than had other judges of the same rank. There were also other interruptions during the day, but the proceedings were devoid of general interest. Mr. Allen spoke for about three hours. He said he was convinced of Mr. McKenna's unfitness for the office. He did not insist upon a rollcall when the vote was taken and the vote was overwhelmingly favorable to confirmation.

**BUREAU OF AMERICAN REPUBLICS.**  
Cabinet Officers Think the Bureau Deserving of Earnest Support.  
WASHINGTON, Jan. 22.—The cabinet yesterday gave some time to a discussion of the conduct of the bureau of American republics, during which it passed in review congressional criticisms that have been lodged against the institution. Secretary Bliss testified as a business man to the great value of the publications of the bureau, particularly since it has come under the administration of the present director, Joseph Smith. It was the general opinion of the cabinet that the bureau was deserving of the earnest support of the administration.

**Senate and House.**  
WASHINGTON, Jan. 22.—An agreement was reached yesterday that a final vote on the Teller resolution, providing that United States bonds may be paid in silver standard dollars, should be taken next Thursday. During the greater part of the afternoon the senate was in executive session. In the house there was a parliamentary struggle over the bill for the relief of the book publishing company of the M. E. church, South. Its opponents succeeded in preventing action. A bill was passed to extend the public land laws of the United States to Alaska and to grant a general railroad right-of-way through the territory. The urgent deficiency bill was sent to conference after striking from the bill the provision requiring the depositors of bullion at government assay offices to pay the cost of transportation to the mints.

**Indiana Postmasters.**  
WASHINGTON, Jan. 22.—The senate yesterday confirmed the appointment of the following Indiana postmasters: J. F. Caskey at Greensburg, J. W. Hess at Indianapolis, T. E. Newton at Shelbyville, G. F. Brown at Nappanee, W. E. Ward at Ridgeville.

**Treasury Statement.**  
WASHINGTON, Jan. 22.—The statement of the condition of the treasury shows: Available cash balance, \$339,669,163; gold reserve, \$103,392,939.

**NO DISCOURTESY SHOWN.**  
Ambassador White Denies the Published Reports Emphatically.

WASHINGTON, Jan. 22.—Ambassador White cabled the following to the secretary of state yesterday: "Statement in morning papers that Mrs. White and myself have been treated discourteously is absolutely and entirely without foundation. Emperor and all others have been most kind to us. I have never needed to call the attention of any person to any slight whatever. The notice regarding my reception was identical with that always issued after the presentation of an ambassador from any great power to the emperor."

The cablegram has reference to published reports that Ambassador and Mrs. White had been ignored and not given the courtesy and attention due his rank by high officials of the German court, and that it had been necessary to admonish the offending officials by a notice in the court circular of Germany. It appears from the cablegram that the court circular's notice, which gave rise to the published report, is simply a belated notice such as is always issued after presentation of an ambassador to the emperor.

**IN NEED OF AID.**  
One-Third the People of a Cuban District Are Suffering.

NEW YORK, Jan. 22.—The central Cuban relief committee, appointed by President McKinley, has received a letter from William R. Day, assistant secretary of state, and a cablegram from General Lee. Mr. Day's contained an enclosure from Consul Hyatt at Santiago de Cuba to the effect that one-third of the people in that district are sick and in need of quinine and other medicines. Lined goods, too, are wanted, and as for food, rice, beans, cornmeal, codfish, dried beef and other articles which will keep well in a warm climate, would be welcome. Consul General Lee sent word that all previous shipments had arrived safely.

**BRIBERY CHARGES.**  
Investigating Committee Visits Cincinnati to Gather Evidence.  
CINCINNATI, Jan. 22.—The legislative committee, investigating the Otis charges of bribery in the recent election of United States senator at Columbus, held a session here last night and is continuing its sittings here today. All members of the committee are present together with quite a delegation from Columbus and others from different parts of the state. The committee came from Columbus to the home of Representative Otis in order to examine witnesses residing in this city. The examination was held in the assembly room of the Gibson House in the presence of quite a large crowd.

**MILEAGE LAW TEST.**  
Suit Being Prepared at Paducah Against Governor Bradley.  
PADUCAH, Ky., Jan. 22.—The city marshal of Paducah is preparing a suit against the governor to test the law relative to mileage allowed for return of culprits to the state. The marshal lately sent to Ohio for a forger and the governor only allowed 3 cents mileage, when the law says 6 cents. The marshal lost by the trip, and hence the proposed suit. The marshal says he has a murderer located, but under the governor's award, cannot afford to send for the man.

**NARROW ESCAPE.**  
Fishermen's Huts Swept Away in a Gale—Occupants Rescued.  
SANDUSKY, O., Jan. 22.—One hundred fishermen's huts on the ice in Lake Erie, off Put-In-Bay, were swept away in a gale. Two hundred men, women and children narrowly escaped drowning by the ice breaking up and carrying them out into the lake and by the huts catching fire. They were rescued after a long and terrible fight with the elements.

**Killed the Officer.**  
SERGEANT, Ky., Jan. 22.—At the head of the Kentucky river, 10 miles above here, Lee Kincer was shot and almost instantly killed by Morgan Turner, a fugitive who is wanted in Floyd county for a postoffice robbery, and whom Kincer had gone to arrest. Turner surrendered.

**Ohio Miners Strike.**  
BELLARE, O., Jan. 22.—The 100 men employed at the Kelly mines north of this city went out on a strike yesterday and will remain out until trouble is settled to their satisfaction. The strikers put up the claim that the company discharged a driver because he would not deal at the company's store.

**Strawboard Works to Start.**  
AKRON, O., Jan. 22.—The plant of the American Strawboard company will be started after a shutdown of 18 months. It will give employment to several hundred men.

**REFORM IN PRIMARIES**  
Session of the National Conference in New York.

**MAYOR OF BOSTON PRESIDED.**  
Ex-Minister to Turkey Strauss Spoke Briefly—Letters From Secretary Gage, Governor Tanner, John P. Altgeld and Others Read at the Conference—Election of Officers.

NEW YORK, Jan. 22.—At yesterday's session of the national conference on the reform of primary elections, Josiah Quincy, mayor of Boston, occupied the chair. Oscar Strauss, ex-minister of the United States to Turkey, spoke briefly. A letter was read from Secretary of the Treasury Gage, in part as follows: "Any barriers that hinder the freest expression of the intelligence and conscience of the nation at the primary must be removed if this is to remain a republican form of government. The party that will refuse to throw the proper restraint around a primary deserves to be repudiated."

Other letters were read from Governor Tanner of Illinois, Dr. Albert Shaw, John P. Altgeld, ex-governor of Illinois, and M. M. Garland, president of the Amalgamated Iron Workers' association.

The constitution as reported by the committee on permanent organization was unanimously adopted. George F. Rush of Chicago, the framer of the primary election law now pending in the legislature of that state, addressed the conference at length in eulogy of his bill.

E. J. McDermott of Louisville read a paper by Thomas L. Johnson on "The Crawford County Plan." The following were unanimously elected officers of the newly formed league for the coming year: President, Hon. Oscar S. Strauss, New York; first vice-president, Josiah Quincy, Boston; second vice-president, Charles E. Smith, Philadelphia; third vice-president, Walter C. Flower, mayor of New Orleans; secretary, Ralph M. Easley, Chicago; treasurer, Darwin R. James, president of New York board of trade and transportation. These officers at their discretion will appoint an executive committee of 15.

**BRADSTREET'S REVIEW.**  
Activity in Business and Industrial Lines the Notable Feature.

NEW YORK, Jan. 22.—Bradstreet's today says: A large measure of activity in business and industrial lines is perhaps the most notable feature of the trade situation this week. Quotations of cereals show the most aggressive strength, while those of some makes of pigiron betray rather more decided weakness than they did a week ago. Mild weather is frequently mentioned as an influence tending to check retail distribution of seasonable goods, chiefly because of the effect on country roads. At the west distributive trade is slowly improving, while at the south a fair January trade is reported, particularly in the Mississippi valley. Good returns from last year's Louisiana sugar crop find expression in higher prices for sugar lands. Mild weather in the northwest affects trades to some extent. A point of interest, however, is the report that for goods manufacturers, usually shut down at this season, are running full time on Alaskan orders. Business is active on the Pacific coast. California crop prospects have been improved by the recent rains, and ship and boat building are very active along Puget sound and at Portland. A further falling off in the number of business failures is reported in the United States this week, the total being only 309 against 323 last week, 429 in this week a year ago. Failures in the Dominion of Canada show a further falling off, amounting this week to only 46 against 58 last week, and 57 in 1897.

**Pensions Granted.**  
WASHINGTON, Jan. 22.—Pensions have been granted to the following Indians: Original—John W. Stevenson, Richmond, \$6; John Reisinger, Evansville, \$8. Additional—Spencer Lawson, Anderson, \$4 to \$6; John Moore, English, \$2 to \$8; John F. Myers, Bremen, \$6 to \$8; Griffin Tyre, Anderson, \$4 to \$6; Garbon R. Graham, Soldiers' home, Grant, \$6 to \$8. Increase—Levi E. Sibley, Mishawaka, \$17 to \$30; James O'Connor, Lafayette, \$10 to \$14; Richard Fisher, Bedford, \$14 to \$17; Joseph W. Hendrickson, Soldiers' home, Tippecanoe, \$10 to \$12; Marcelus Brown, Lewis, \$13 to \$17. Reissue—Samuel E. Courtwright, Valparaiso, \$16. Original Widows, Etc.—Margaret A. Jones, Newton, \$8; Sarah M. Cleveland, Farmland, \$8; minor of Samuel P. Carter, Merom, \$10. Reissue—Sarah C. Deniston, Bedford, \$8.

**Really Fought a Duel.**  
PARIS, Jan. 22.—M. Vervoort, editor of Le Jour, and M. Adjalt, a writer for Les Droits de l'Homme, fought a duel with swords on account of a dispute arising out of the Dreyfus case. M. Vervoort sustained three flesh wounds and M. Adjalt was wounded in the forearm. The seconds stopped the fight.

**Schaefer's Billiard Record.**  
CHICAGO, Jan. 22.—Jacob Schaefer yesterday afternoon made a new world's record at the 18-inch ball line game. He ran 400 points in 10 innings, an average of 40, defeating Catton, who scored but 93.

**Maryland Senatorial Contest.**  
ANNAPOLIS, Jan. 22.—The Maryland general assembly took two more joint ballots yesterday in an unavailing effort to elect a United States senator, making a total of seven.

**Will Comply With Laws.**  
Wabash Cars to Be Equipped With Devices Required by Federal Statutes.  
ST. LOUIS, Jan. 22.—In pursuance to the federal law regarding the couplings of railroad cars after Feb. 1, the Wabash will not accept any car to be hauled in passenger trains unless it is equipped with vertical plane couplers. Westinghouse quickacting automatic airbrakes and Westinghouse air train signals. Eastern roads have complied with the new statute and the new vertical coupler is now almost universally used. West of the Mississippi the improvement has not been so rapid, and many lines are still using the old style Miller hooks. The Wabash order further specifies that all cars hauled in passenger trains between Chicago and Buffalo must be equipped with steam heating apparatus. The change is made necessary by a state law in force in New York prohibiting fires in the stoves of passenger coaches. The Burlington system has given similar orders.

**IN OLD MADRID.**  
Feeling That the United States Has No Motive For Interference.  
MADRID, Jan. 22.—The feeling in official circles, after the dispatches received by Senator Sagasta from Cuba, is that the United States no longer has a motive for direct or indirect interference in Cuba. The government considers that persistence in the jingo attitude by the American congress would be contrary to the dictates of reason and justice; and should the Washington government, in deference to the jingo tendency, commit unjustifiable acts, Spain would regard them as a veritable provocation, which she would reply to with the energy befitting the country's honor. It is announced that the foreign minister Senor Gullon, has received Washington dispatches which provoked a long cabinet discussion.

**SCHOOLTEACHER ASSAULTED.**  
Two Boys, Whom He Had Whipped, Waylaid and Beat Him Severely.  
ANNA, Ills., Jan. 22.—John McGowan, a young teacher from Williamson county, who has been teaching a school in the northern portion of Alexander county, received serious injuries by two pupils, Henry and Scott Jordan, 19 and 20 years old, respectively. Mr. McGowan made a rule for all pupils to greet each other upon entering the schoolroom each morning and to show some respect for one another. The Jordan boys did not like the rule and disobeyed it. This resulted in a whipping being given them by the teacher. The boys later waylaid McGowan and gave him a severe beating. They were arrested and are held at Jonesborough pending the action of the grand jury. For a time there was much feeling against the boys, who have confessed.

**SOLD HIS DAUGHTERS.**  
Two Girls Given in Marriage For a Debt of One Hundred Dollars.

KELLEY'S ISLAND, O., Jan. 22.—A year ago Joseph Folk came here from Poland and soon found work. He had been here but a short time when he received news from the old country of his wife's death, and later the information reached him that his two daughters were in want. Not having money enough to send for his children, he borrowed \$50 each from Peter Mille and Joseph Haddock, fellow work men, to pay their passage to this country. A couple of weeks ago the girls arrived and were warmly received. But the money loaned by Mille and Haddock was due and Folk could not pay it. They pressed him and finally the old man said he was afraid he could never pay it, but to satisfy the debt he would give one of his daughters to each as a wife, and this proposition was accepted. Mary Folk, age 16, was chosen by Haddock, and the younger one by Mille. Licenses were taken out and the two girls are now the wives of their father's debtors.

Wabash Cars to Be Equipped With Devices Required by Federal Statutes.  
ST. LOUIS, Jan. 22.—In pursuance to the federal law regarding the couplings of railroad cars after Feb. 1, the Wabash will not accept any car to be hauled in passenger trains unless it is equipped with vertical plane couplers. Westinghouse quickacting automatic airbrakes and Westinghouse air train signals. Eastern roads have complied with the new statute and the new vertical coupler is now almost universally used. West of the Mississippi the improvement has not been so rapid, and many lines are still using the old style Miller hooks. The Wabash order further specifies that all cars hauled in passenger trains between Chicago and Buffalo must be equipped with steam heating apparatus. The change is made necessary by a state law in force in New York prohibiting fires in the stoves of passenger coaches. The Burlington system has given similar orders.

**IN OLD MADRID.**  
Feeling That the United States Has No Motive For Interference.  
MADRID, Jan. 22.—The feeling in official circles, after the dispatches received by Senator Sagasta from Cuba, is that the United States no longer has a motive for direct or indirect interference in Cuba. The government considers that persistence in the jingo attitude by the American congress would be contrary to the dictates of reason and justice; and should the Washington government, in deference to the jingo tendency, commit unjustifiable acts, Spain would regard them as a veritable provocation, which she would reply to with the energy befitting the country's honor. It is announced that the foreign minister Senor Gullon, has received Washington dispatches which provoked a long cabinet discussion.

## A Shattered Nervous System.

FINALLY HEART TROUBLE.  
Restored to Health by Dr. Miles' Nerve.

**DR. EDWARD HARDY**, the jolly manager of Sheppard Co.'s great store at Bruceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

## INDIANA'S NATURAL RESOURCES.

In speaking of the development of the natural resources State Geologist Blatchley has the following to say:

"The resources of the state are being developed at the rate of nearly \$20,000,000 yearly, yet much of the capital which is bringing about this development is owned by parties outside of the state. They reap the benefits; they pocket the profits. The people of Indiana, with hundreds of thousands of dollars of capital lying idle, have been the most part reluctant to invest in the resources of their state. They have stood by and soon the thickest coal veins, our greatest clay factories, our largest stone quarries, the majority of our oil wells and the greater part of our natural gas property owned and operated by foreign capital. A few millions are invested in developing these resources and pay taxes into our treasuries, but the profits, aggregating far greater sums, go into the coffers of non-resident owners. Were Indiana capital invested both capital and profits would remain in the state and the wealth upon which taxes are based would increase in much greater proportion. In the clay industry, especially should Indiana capital be invested, and the several millions of dollars now annually sent outside of the state for clay products be kept within her bounds. With raw material and fuel both plentiful home factories should be erected, should be protected, should be patronized in such a way only can the future wealth and welfare of the state be increased and plentiful labor be provided for her workingmen."

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Are a mighty combination and together they have helped the physician to down many diseases which otherwise would have proved fatal.

It stands to reason, that a physician can only win the fight against death by using strong, virile drugs. Such drugs can only be found in a first class pharmacy where prescriptions are carefully compounded. "Carefully compounded" means something here.

### RECEIVING THE VERDICT.

Appearance of Coryell in Court to Hear the Jury's Verdict.

The Columbus Herald has the following to the verdict rendered by the jury in the case of Frank Coryell:

"The defendant, Frank Coryell, was brought to the court room from the jail and his face was deathly pale while he sat there waiting the announcement of the result of the jury's action, occasionally raising his colored goggles to wipe his eyes. The jury collectively viewed the prisoner, but the audience could not read the minds of the body and determine the verdict.

"The verdict of the jury was then called for and read. 'We, the jury, find the defendant guilty of murder in the second degree and assess his punishment at imprisonment at the Indiana state prison during life.'

"At these words, Coryell dropped his head and grew nervous. The judge then called for a poll of the jury and asked them individually if the verdict read was their verdict and they answered that it was.

"When asked to arise to be taken back to jail the prisoner straightened as if to walk but his nerves failed him and he started to sink but by the assistance of the officers he was held up. CORYELL HAS NOTHING TO SAY.

The Herald reporter called at the jail this afternoon and talked with the prisoner. He seemed to be in a rather easy mood. He talked courteously and would answer outside questions promptly and cheerfully, but when asked to express himself on the verdict he only replied: "I have nothing further to say than what I said on the witness stand. Jail is a gloomy, unpleasant place but I must abide by the decision."

A motion for a new trial will be argued before Judge Hord next Wednesday.

### Sudden Death.

The people of Cortland were surprised last night on learning of the death of Mrs. William Brooker who died suddenly at 8:30 o'clock Friday night January 21, 1898, with heart trouble. She had retired only a short time before. She was heard to utter a peculiar noise when her husband hurried to her bedside. A physician was called who did all in his power but to no purpose and she quietly passed away. Her age was about thirty-five years. She was an ardent member of the M. E. church and was highly respected by all. She was also a member of the Cortland Grange by which order her funeral will take place at Cortland at 11 o'clock tomorrow forenoon. A husband and eight children survive who have the sincere sympathy of their many friends.

### May Partially Agree.

The state board of education held a meeting yesterday to discuss the proposition of the nonstate college men looking to reorganization of the board. Nothing was given out for publication regarding the deliberations, and the board adjourned until 8 o'clock today to take up the matter again. Something is expected to develop today, and the indications point to a partial agreement at least between the clashing educational interests. The presidents of the various nonstate colleges are now in Indianapolis awaiting the final action of the state board.

### Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Hall's Family Pills are the best.

If you eat what you like, and digest it, you will surely be strong and healthy. But if you don't digest it, you might almost as well not eat, for what good can your food do you if it doesn't nourish you?

## OUTCOME UNCERTAIN

**Banking Committee Members Differ on Currency Revision.**

**SENATE CONFIRMS MR. M'KENNA**

Cabinet Officers in Favor of the Bureau of American Republics.—Proceedings of the Senate and House of Representatives.—Postmasters Confirmed.—Treasury Statement.

WASHINGTON, Jan. 22.—The committee on banking and currency, having concluded its hearings, extending over many days, on the question of revising the currency, will begin next Wednesday to consider the question of a report on some one of the numerous propositions submitted. The members of the committee differ widely as to the outlook for affirmative action, some of them in leading positions declaring that the hearings have demonstrated that it will be impossible to secure a majority for any one proposition. Others are more hopeful and say that a composite measure, embodying the essential features of the Gage bill and monetary commission bill, is likely to command sufficient votes to be reported. There is a general agreement that none of the bills before the committee will be reported in their present form.

There are 17 members of the committee, five of them Democrats. Members favorable to the monetary commission bill say they hope to get seven votes at the outset, and later to secure the additional votes necessary. Some of the members counted in this seven say, however, that they will not vote for the bill. The situation within the committee is conceded to be very complicated. In view of this condition a number of members hope to have the general question put aside for the present and a bill restricted to the three recommendations of the president reported. This also arouses counter objections, so that there is little on which to base predictions of the outcome.

**M'KENNA CONFIRMED.**

Senator Allen Occupied Some Time in a Speech Against the Confirmation.

WASHINGTON, Jan. 22.—The senate yesterday confirmed the nomination of Joseph McKenna of California to be associate justice of the supreme court of the United States.

Senator Allen occupied almost the entire executive session with his speech in opposition to confirmation, though there were brief remarks by Senators Turner and Wilson of Washington and others favorable to Mr. McKenna. There was no division on the vote.

Senator Allen had before him the charges filed with the committee on judiciary, which he read at length. This comprised a large number of letters, some resolutions and the protest of lawyers and judges on the Pacific coast, charging that McKenna is unfitted for the high office of supreme court justice on the ground of a want of legal attainments. He commented at length upon this latter document and was interrupted by Senator Perkins of California, who read a published defense of Judge McKenna, giving statistics to show that he had not, as judge of the California federal court, been more frequently reversed by superior tribunals than had other judges of the same rank. There were also other interruptions during the day, but the proceedings were devoid of general interest.

Mr. Allen spoke for about three hours. He said he was convinced of Mr. McKenna's unfitness for the office. He did not insist upon a rollcall when the vote was taken and the vote was overwhelmingly favorable to confirmation.

**BUREAU OF AMERICAN REPUBLICS.**

Cabinet Officers Think the Bureau Deserving of Earnest Support.

WASHINGTON, Jan. 22.—The cabinet yesterday gave some time to a discussion of the conduct of the bureau of American republics, during which it passed in review congressional criticisms that have been lodged against the institution. Secretary Bliss testified as a business man to the great value of the publications of the bureau, particularly since it has come under the administration of the present director, Joseph Smith. It was the general opinion of the cabinet that the bureau was deserving of the earnest support of the administration.

**Senate and House.**

WASHINGTON, Jan. 22.—An agreement was reached yesterday that a final vote on the Teller resolution, providing that United States bonds may be paid in silver standard dollars, should be taken next Thursday. During the greater part of the afternoon the senate was in executive session. In the house there was a parliamentary struggle over the bill for the relief of the book publishing company of the M. E. church, South. Its opponents succeeded in preventing action. A bill was passed to extend the public land laws of the United States to Alaska and to grant a general railroad right-of-way through the territory. The urgent deficiency bill was sent to conference after striking from the bill the provision requiring the depositors of bullion at government assay offices to pay the cost of transportation to the mints.

**Indiana Postmasters.**

WASHINGTON, Jan. 22.—The senate yesterday confirmed the appointment of the following Indiana postmasters: J. F. Caskey at Greensburg, J. W. Hess at Indianapolis, T. E. Newton at Shelbyville, G. F. Brown at Nappanee, W. E. Ward at Ridgeville.

**Treasury Statement.**

WASHINGTON, Jan. 22.—The statement of the condition of the treasury shows: Available cash balance, \$339,669,183; gold reserve, \$163,992,996.

## NO DISCOURTESY SHOWN.

Ambassador White Denies the Published Reports Emphatically.

WASHINGTON, Jan. 22.—Ambassador White cabled the following to the secretary of state yesterday: "Statement in morning papers that Mrs. White and myself have been treated discourteously is absolutely and entirely without foundation. Emperor and all others have been most kind to us. I have never needed to call the attention of any person to any slight whatever. The notice regarding my reception was identical with that always issued after the presentation of an ambassador from any great power to the emperor."

The cablegram has reference to published reports that Ambassador and Mrs. White had been ignored and not given the courtesy and attention due his rank by high officials of the German court, and that it had been necessary to admonish the offending officials by a notice in the court circular of Germany. It appears from the cablegram that the court circular's notice, which gave rise to the published report, is simply a belated notice such as is always issued after presentation of an ambassador to the emperor.

**IN NEED OF AID.**

**One-Third the People of a Cuban District Are Suffering.**

NEW YORK, Jan. 22.—The central Cuban relief committee, appointed by President McKinley, has received a letter from William R. Day, assistant secretary of state, and a cablegram from General Lee. Mr. Day's contained an inclosure from Consul Hyatt at Santiago de Cuba to the effect that one-third of the people in that district are sick and in need of quinine and other medicines. Linen goods, too, are wanted, and as for food, rice, beans, cornmeal, codfish, dried beef and other articles which will keep well in a warm climate, would be welcome. Consul General Lee sent word that all previous shipments had arrived safely.

**BRIBERY CHARGES.**

Investigating Committee Visits Cincinnati to Gather Evidence.

CINCINNATI, Jan. 22.—The legislative committee, investigating the Otis charges of bribery in the recent election of United States senator at Columbus, held a session here last night and is continuing its sittings here today. All members of the committee are present together with quite a delegation from Columbus and others from different parts of the state. The committee came from Columbus to the home of Representative Otis in order to examine witnesses residing in this city. The examination was held in the assembly room of the Gibson House in the presence of quite a large crowd.

**MILEAGE LAW TEST.**

Suit Being Prepared at Paducah Against Governor Bradley.

PADUCAH, Ky., Jan. 22.—The city marshal of Paducah is preparing a suit against the governor to test the law relative to mileage allowed for return of culprits to the state. The marshal lately sent to Ohio for a forger and the governor only allowed 3 cents mileage, when the law says 6 cents. The marshal lost by the trip, and hence the proposed suit. The marshal says he has a murderer located, but under the governor's award, cannot afford to send for the man.

**NARROW ESCAPE.**

Fishermen's Huts Swept Away in a Gale—Occupants Rescued.

SANDUSKY, O., Jan. 22.—One hundred fishermen's huts on the ice in Lake Erie, off Put-In-Bay, were swept away in a gale. Two hundred men, women and children narrowly escaped drowning by the ice breaking up and carrying them out into the lake and by the huts catching fire. They were rescued after a long and terrible fight with the elements.

**Killed the Officer.**

SERGEANT, Ky., Jan. 22.—At the head of the Kentucky river, 10 miles above here, Lee Kincaid was shot and almost instantly killed by Morgan Turner, a fugitive who is wanted in Floyd county for a postoffice robbery, and whom Kincaid had gone to arrest. Turner surrendered.

**Ohio Miners Strike.**

BELLAIRE, O., Jan. 22.—The 100 men employed at the Kelly mines north of this city went out on a strike yesterday and will remain out until trouble is settled to their satisfaction. The strikers put up the claim that the company discharged a driver because he would not deal at the company's store.

## REFORM IN PRIMARIES

**Session of the National Conference in New York.**

**MAYOR OF BOSTON PRESIDED.**

Ex-Minister to Turkey Spoke Briefly—Letters From Secretary Gage, Governor Tanner, John P. Altgeld and Others Read at the Conference—Election of Officers.

NEW YORK, Jan. 22.—At yesterday's session of the national conference on the reform of primary elections, Josiah Quincy, mayor of Boston, occupied the chair. Oscar Strauss, ex-minister of the United States to Turkey, spoke briefly. A letter was read from Secretary of the Treasury to Gage, in part as follows:

"Any barriers that hinder the freest expression of the intelligence and conscience of the nation at the primary must be removed if this is to remain a republican form of government. The party that will refuse to throw the proper restraint around a primary deserves to be repudiated."

Other letters were read from Governor Tanner of Illinois, Dr. Albert Shaw, John P. Altgeld, ex-governor of Illinois, and M. M. Garland, president of the Amalgamated Iron Workers' association.

The constitution as reported by the committee on permanent organization was unanimously adopted.

George F. Rush of Chicago, the framer of the primary election law now pending in the legislature of that state, addressed the conference at length in eulogy of his bill.

E. J. McDermott of Louisville read a paper by Thomas L. Johnson on "The Crawford County Plan."

The following were unanimously elected officers of the newly formed league for the coming year: President, Hon. Oscar S. Strauss, New York; first vice-president, Josiah Quincy, Boston; second vice-president, Charles Emory Smith, Philadelphia; third vice-president, Walter C. Flower, mayor of New Orleans; secretary, Ralph M. Easley, Chicago; treasurer, Darwin R. James, president of New York board of trade and transportation. These officers at their discretion will appoint an executive committee of 15.

**BRADSTREET'S REVIEW.**

Activity in Business and Industrial Lines the Notable Feature.

NEW YORK, Jan. 22.—Bradstreet's today says: A large measure of activity in business and industrial lines is perhaps the most notable feature of the trade situation this week. Quotations of cereals show the most aggressive strength, while those of some makes of pigiron betray rather more decided weakness than they did a week ago. Mild weather is frequently mentioned as an influence tending to check retail distribution of seasonal goods, chiefly because of the effect on country roads.

At the west distributive trade is slowly improving, while at the south a fair January trade is reported, particularly in the Mississippi valley. Good returns from last year's Louisiana sugar crop find expression in higher prices for sugar lands. Mild weather in the northwest affects trades to some extent. A point of interest, however, is the report that fur goods manufacturers, usually shut down at this season, are running full on Alaskan orders. Business is active on the Pacific coast. California crop prospects have been improved by the recent rains, and ship and boat building are very active along Puget sound and at Portland.

A further falling off in the number of business failures is reported in the United States this week, the total being only 309 against 323 last week, 429 in this week a year ago. Failures in the Dominion of Canada show a further falling off, amounting this week to only 46 against 58 last week, and 57 in 1897.

Hendricks, Soldiers' home, Tippecanoe, \$10 to \$12; Marcelus Brown, Lewis, \$13 to \$17. Reissue—Samuel F. Courtwright, Valparaiso, \$16. Original Widows, Etc.—Margaret A. ## SOLD HIS DAUGHTERS.

Two Girls Given in Marriage For a Debt of One Hundred Dollars.

KELLEY'S ISLAND, O., Jan. 22.—A year ago Joseph Folk came here from Poland and soon found work. He had been here but a short time when he received news from the old country of his wife's death, and later the information reached him that his two daughters were in want. Not having money enough to send for his children, he borrowed \$50 each from Peter Mille and Joseph Hidcock, fellow workmen, to pay their passage to this country.

A couple of weeks ago the girls arrived and were warmly received. But the money loaned by Mille and Hidcock was due and Folk could not pay it. They pressed him and finally the old man said he was afraid he could never pay it, but to satisfy the debt he would give one of his daughters to each as a wife, and this proposition was accepted. Mary Folk, age 16, was chosen by Hidcock, and the younger one by Mille. Licenses were taken out and the two girls are now the wives of their father's debtors.

**WILL COMPLY WITH LAWS.**

Wabash Cars to Be Equipped With Devices Required by Federal Statutes.

ST. LOUIS, Jan. 22.—In pursuance to the federal law regarding the couplings of railroad cars after Feb. 1, the Wabash will not accept any car to be hauled in passenger trains unless it is equipped with vertical plane couplers, Westinghouse quickacting automatic airbrakes and Westinghouse air train signals. Eastern roads have complied with the new statute and the new vertical coupler is now almost universally used. West of the Mississippi the improvement has not been so rapid, and many lines are still using the old style Miller hooks. The Wabash order further specifies that all cars hauled in passenger trains between Chicago and Buffalo must be equipped with steam heating apparatus. The change is made necessary by a state law in force in New York prohibiting fires in the stoves of passenger coaches. The Burlington system has given similar orders.

**IN OLD MADRID.**

Feeling That the United States Has No Motive for Interference.

MADRID, Jan. 22.—The feeling in official circles, after the dispatches received by Senator Sagasta from Cuba, is that the United States no longer has a motive for direct or indirect interference in Cuba.

The government considers that persistence in the jingo attitude by the American congress would be contrary to the dictates of reason and justice; and should the Washington government, in deference to the jingo tendency, commit unjustifiable acts, Spain would regard them as a veritable provocation, which she would reply to with the energy befitting the country's honor.

It is announced that the foreign minister Senor Gallon, has received Washington dispatches which provoked a long cabinet discussion.

**SCHOOLTEACHER ASSAULTED.**

Two Boys, Whom He Had Whipped, Waylay and Beat Him Severely.

ANNA, Ills., Jan. 22.—John McGowan, a young teacher from Williamson county, who has been teaching a school in the northern portion of Alexander county, received serious injuries by two pupils, Henry and Scott Jordan, 19 and 20 years old, respectively. Mr. McGowan made a rule for all pupils to greet each other upon entering the schoolroom each morning and to show some respect for one another. The Jordan boys did not like the rule and disobeyed it. This resulted in a whipping being given them by the teacher.

The boys later waylaid McGowan and gave him a severe beating. They were arrested and are held at Jonesborough pending the action of the grand jury. For a time there was much feeling against the boys, who have confessed.

## A Shattered Nervous System.

FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nerve.

**DR. EDWARD HARDY**, the jolly manager of Sheppard Co.'s great store at Braceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Nerve Restores Health. Are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

### INDIANA'S NATURAL RESOURCES.

In speaking of the development of the natural resources State Geologist Blatchley has the following to say:

"The resources of the state are being developed at the rate of nearly \$20,000,000 yearly, yet much of the capital which is bringing about this development is owned by parties outside of the state. They reap the benefits; they pocket the profits. The people of Indiana, with hundreds of thousands of dollars of capital lying idle, have been or the most part reluctant to invest in the resources of their state. They have stood by and soon the thickest coal veins, our greatest clay factories, our largest stone quarries, the majority of our oil wells and the greater part of our natural gas property owned and operated by foreign capital. A few millions are invested in developing these resources and pay taxes into our treasuries, but the profits, aggregating far greater sums, go into the coffers of non-resident owners. Were Indiana capital invested both capital and profits would remain in the state and the wealth upon which taxes are based would increase in much greater proportion. In the clay industry, especially should Indiana capital be invested, and the several millions of dollars now annually sent outside of the state for clay products be kept within her bounds. With raw material and fuel both plentiful home factories should be erected, should be protected, should be patronized in such a way only can the future wealth and welfare of the state be increased and plentiful labor be provided for her workingmen."

## FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and she helped my mother through the Change of Life."

## GAMBLERS RUN OUT

Roby Not to Be a Refuge For the Chicago Exiles.

### M'INTOSH GOES UP FOR LIFE.

Fourteen Coalboats Sunk in a Storm. Disastrous Flood at English—Many Being Converted—Violent Type of Diphtheria—Brutal Teamster Sentenced to Jail For Thirty-Four Days.

INDIANAPOLIS, Jan. 22.—The state authorities are much rejoiced over information from Roby that the law has been invoked to rout out the gamblers. For a month and more Governor Mount has been in correspondence with the local authorities, besides which he sent a private detective to Roby to make observations. The governor instructed the agent in effect that if they were conforming with the law he had no wish to interfere, but if it were true that gaming was openly and notoriously carried on, and if the prostitutes and gamblers who had been driven out of Chicago were congregating at Roby, then the agent must advise him as to the fact. A report was submitted to the governor several days ago confirming all the statements heretofore reaching his ears, and then, after consulting with the attorney general, it was determined to proceed against the Roby people under the general nuisance act.

The fact that the Lake county authorities have forstalled the governor is therefore quite clearly defined. It is said that the governor had planned a coup, which embraced the arrest at one and the same time of the principal gamblers concerned in Roby, with the hope that the infliction of heavy fines, coupled with possible imprisonment, would terrorize all of them and rid the state at once and forever of their presence. It is also said that he had planned to have a company of militia assist the sheriff of Lake county in making the arrests so that the capture might be wholesale. It seems, however, that the local authorities proceeded without acquainting the governor with their determination, thereby demonstrating that the county is able to protect itself without the aid of the militia.

### DISASTROUS FLOOD.

Three Bridges Swept Away and Considerable Other Damage Done.

ENGLISH, Ind., Jan. 22.—One of the most disastrous floods ever known to English is now being felt and three of the five bridges over Little Blue river were washed away. Nine horses within the corporation and a large number in the suburbs are reported drowned. A large number of fat hogs were lost. Nearly 50 persons on Court street bridge, when the bridge was swept from its moorings, were saved from drowning only by citizens risking their lives in the work of life saving. Much damage is being reported from the surrounding country.

### M'INTOSH CONVICTED.

Murder of Saloonist Pottmeyer Given a Life Sentence.

LOGANSPORT, Ind., Jan. 22.—The jury in the McIntosh murder case returned a verdict of imprisonment for life. John McIntosh shot and instantly killed Frank Pottmeyer, a saloonist, in October. The deed was committed with a shotgun and two brothers and a sister of the deceased were injured in the affair. The verdict is generally approved. McIntosh has a wife and five children. He expected acquittal on the ground of self-defense.

### Coalboats Sunk in a Storm.

LEAVENWORTH, Ind., Jan. 22.—The towboat Job Williams, with a tow of 60 coalboats, was caught in the storm above here and 14 of the coalboats were sunk and two of the steamers' crew washed overboard and drowned. The boat was battered up considerably, but was able to proceed on her way.

### Many Being Converted.

WESTFIELD, Ind., Jan. 22.—The revival is the topic of conversation not only here, but for miles around. The meetings sometime begin in the early afternoon and continue without intermission until midnight. Many are being converted.

### Violent Type of Diphtheria.

BEATTY'S STATION, Ind., Jan. 22.—Diphtheria of a most violent type is prevailing here, seven cases being reported from one household. The disease is also prevalent at Waterford, and is said to be assuming an alarming phase at Chesterton.

### Fell Results in Death.

PIERCETON, Ind., Jan. 22.—Paul Kettig, a young man living north of this place, is dead of aneurysm of the kidneys. About five months ago he fell backward on a croquet wicket and injured his back, causing the disease.

### Spread of Typhoid Fever.

WASHINGTON, Ind., Jan. 22.—The spread of typhoid fever in this city is causing alarm. The physicians attribute the cause to impure water. The city has 10,000 population and no sanitary sewage system.

### Heirless to a Big Estate.

LIGONOT, Ind., Jan. 22.—Mrs. Wilbur S. Hills of this city has received notice from an attorney at Washington that she is one of the heirs to the DeHaven estate, and that her share will equal \$70,000.

### Brutal Teamster Sentenced.

FRANKTON, Ind., Jan. 22.—Frank James, a teamster of this place, was sentenced to 34 days in the county jail for killing a horse with a single-tree. He was at one time marshal of Frankton.
